

## Master Clinician Survey

If you could spend one-half day with a senior faculty member observing their practice, teaching, research, etc., who would it be; what activities or aspects of their professional life would you like to focus on

| Respondent               | Physician Identified | Subject  |
|--------------------------|----------------------|--|
| Campbell, Kevin          | Anderson, Mark       | Research   |
| Taj, Jabeen              | Benson, Chris        |  |
| O'Dorisio, Thomas        | Berg, Daniel         | Their interactive skills in situations of grave cancers that may require Hospice. I would like to be able to emulate his process as he helps Patients keep their dignity and make them feel comfortable with their                                   |
| Light-McGroary, KellyAnn | Brennan, Terri       |  |
| Hunsicker, Larry         | Broderick, Ann       | actually dealing with a patient and family to clarify "goals of treatment."  |
| Lindower, Paul           | Chatterjee, Kanu     | I would like to shadow him interacting with patients in the clinic and on the ward.  |
| Zabner, Joseph           | Fieselman, John      | Time management; how to keep your focus on your main career interests  |
| Goerd, Chris             | Fieselman, John      | Teaching Style   |
| Lenert, Petar            | Fieselman, John      |  |
| Light-McGroary, KellyAnn | Geist, Lois          |  |
| White, Katherine         | Goerd, Chris         | How he incorporates teaching into his clinic encounters and still maintains efficiency, and how he manages follow-up issues of patients he sees with residents to ensure teaching points are carried   |
| Cirillo, Dom             | Goerd, Chris         | Efficient ambulatory patient visits<br>Best practices with EPIC for outpatient clinicians<br>Efficient use of ancillary staff for patient communications, and addressing paperwork with external entities (pharmacies, insurers, & other clinicians) |
| Fieselmann, John         | Gordon, Joel         | his teaching techniques with 3 <sup>rd</sup> year medical students in the ambulatory setting   |
| Schmid, Phil             | Gordon, Joel         |  |
| Okrah, Kingston          | Horwitz, Phillip     | Clinical and research  |
| Schmid, Phil             | Johannsson, Birgir   |  |
| Are, Chaitanya           | Johlin, Frederick    | Watch their clinical skills, interactions with patients, time management and self-management   |
| Grumbach, Isabella       | Kerber, Dick         | Outpatient Clinic  |
| Densen, Peter            | LeBlond, Dick        | Clinical   |
| Cirillo, Dom             | LeBlond, Dick        | Diagnostic savvy – acknowledging that hoof beats are likely from horses but when to think about the zebras<br>Establishing long-term provider-patient relationships, and knowing how to end relationships professionally when they aren't working    |
| Taj, Jabeen              | London, Barry        | how they manage to run a successful research lab and at the same time staff busy clinical practices  |
| Vander Weg, Mark         | Rosenthal, Gary      | Grants management; mentoring of junior faculty; community outreach   |
| Tandon, Rudhir           | Snyder, Pete         | I would like to know and learn about Dr. Snyder's research activities/his research/basic science lab.  |
| Goerd, Chris             | Suneja, Manish       | Teaching Style   |
| Smock, Justin            | Suneja, Manish       |  |

# Master Clinician Survey

If you could spend one-half day with a senior faculty member observing their practice, teaching, research, etc., who would it be; what activities or aspects of their professional life would you like to focus on

| Respondent      | Physician Identified | Subject   |
|-----------------|----------------------|---|
| Goerdts, Chris  | Szot, Joe            | Teaching Style  |
| Are, Chaitanya  | Voigt, Michael       | Watch their clinical skills, interactions with patients, time management and self-management  |
| McNamara, James | Welsh, Mike          | Three things come to mind: 1) management of research collaborations, 2) grantsmanship and general strategies for securing external research funding and 3) preparation of manuscripts for submission to |
| Kamath, Aparna  | Wilson, Scott        |   |
| Are, Chaitanya  | Wilson, Scott        | Watch their clinical skills, interactions with patients, time management and self-management  |
